SUMMARY

Software Engineer with strong analytical and problem-solving skills, experienced in SQL, backend systems, and data-driven applications. Skilled in translating business requirements into scalable technical solutions, with exposure to client interaction and end-to-end workflow implementation. Strong understanding of data analysis, API design, and business process optimization. Seeking a Consulting role to deliver high-impact solutions in enterprise environments.

CORE COMPETENCIES

- SQL & Database Querying
- Data Analysis & Business Insights
- Problem Solving & Logical Reasoning
- API Design & Backend Systems
- Business Process Understanding
- Client Interaction & Communication
- Requirement Analysis

TECHNICAL SKILLS

Languages: Python, SQL, C

Backend: FastAPI, Flask, REST APIs

Database: MySQL, SQL (Joins, Aggregations)

Data: Pandas, NumPy, Matplotlib, Plotly

Tools: Git, GitHub, Streamlit, VS Code

EXPERIENCE

Full-Stack & AI Engineer Intern – Dezors

Nov 2025 – Feb 2026

Designed backend workflows and authentication system for a multi-module AI platform, built API-driven execution systems to process structured user requests, and worked on requirement analysis and implementation of scalable backend architecture. Optimized workflows and deployed a production-ready platform for public use.

Business Operations Intern – Durga Plastics

May 2024 – July 2024

Managed interactions with 10+ clients and assisted in processing 20+ orders across production and delivery workflows. Handled requirement analysis, coordinated pricing and delivery, and supported invoicing processes while ensuring smooth execution of business operations and data accuracy.

PROJECTS

Skill Gap Analyzer

GitHub

- Built data-driven platform analyzing 50+ skills across job roles
- Implemented data processing using Pandas and dashboards using Plotly
- Generated automated reports ensuring data consistency and accuracy

Sales Insights Dashboard (Business Analytics)

- Analyzed 1,000+ sales records using SQL (joins, aggregations)
- Identified top customers, revenue trends, and regional performance
- Developed dashboard to support business decision-making

EDUCATION

KIIT University

2023 – Present

B.Tech in Computer Science

CGPA: 7.19

ACHIEVEMENTS

- Completed **Corporate Governance, Business for Good: Fundamentals of Corporate Responsibility**, and **Ethical Decision Making for Success in the Tech Industry**
- Participated in **Smart India Hackathon (SIH)** with exposure to real-world problem solving
- Completed **Agentic AI Bootcamp** by UiPath Student Community, gaining hands-on experience in AI systems

ADDITIONAL INFORMATION

Strong interest in data-driven decision making and business analytics. Experience working with real-world workflows and client interaction. Quick learner with ability to adapt to new tools and technologies.
